

## Mokolodi Nature reserve

Mokolodi nature reserve offers a safe and up-close experience with African wildlife-just 10 minutes away from Gaborone. Whether you are out on a game drive, bush braai, Cheetah visit or horse-back safari, staying at our chalets, or eating at our finest Mokolodi restaurant, all that remains is for you to enjoy the smell of dust, the sunsets, the wildlife, and all the things that have made us so passionate about Mokolodi. Established in 1994 as a charitable organization upon 10,000 acres of donated land, Mokolodi provides a protected and balanced environment for Botswana's flora and fauna. Today Mokolodi's internationally recognized environmental education and conservation programmes are delivered to thousands of school children in Botswana every year.

Every time you visit Mokolodi you are directly subsidizing our conservation and environmental education programmes. May the magic of Mokolodi enter your hearts &ndash; if it has not done so already.
